"Centers of Excellence" in Saxony-Anhalt

Saxony-Anhalt has launched a new campaign to show that – despite all clichés – the federal state provides excellent conditions for the development of innovations. The twelve selected "Centers of Excellence", where science, research and industry are concentrated on one site, have very diverse industry focuses ranging from chemistry, multimedia to life sciences. The close proximity of the different players facilitates informal exchange and cooperation.

Among those "Centers of Excellence" are the chemical park in Bitterfeld-Wolfen, Research Campus STIMULATE (Magdeburg), and the Technology Park Weinberg Campus (Halle).
